Professional Summary

Software Developer with practical experience in building responsive web applications using HTML5, CSS3, JavaScript, React.js, and Node.js . Proficient in API development, database management with MySQL and MongoDB, and writing clean, efficient code.

Work Experience

Software Developer, Foxdare Technologies

May 2024 – Feb 2026

- Designed and maintained scalable, responsive web applications using **HTML5, CSS3, JavaScript (ES6+), and React.js**.
- Built reusable React components and managed application state using **Zustand**.
- Developed and integrated **RESTful APIs** using **Node.js and Express.js**.
- Managed relational data with **MySQL**, including schema design and CRUD operations.
- Implemented efficient data fetching and caching using **TanStack Query (React Query)**.
- Collaborated with cross-functional teams to improve **UI/UX, performance, and cross-browser compatibility**.
- Followed **clean code practices**, performed debugging, and participated in code reviews to ensure high-quality deliverables.

Projects

Identity and Access Management (IAM) Platform

- Built a full-stack Identity and Access Management (IAM) platform featuring **JWT authentication, Multi-Factor Authentication (MFA), and Role-Based Access Control (RBAC)**.
- Developed multi-tenant organization management, invitation-based onboarding, and secure session handling using **Redis** and **MongoDB**.
- Implemented asynchronous email processing and background job queues with **Redis** and **Bull** for scalable notification delivery.
- Created responsive authentication and administration interfaces using **Next.js, React, Tailwind CSS, and shadcn/ui**.
- **Technologies:** Next.js, React, Node.js, Express.js, PostgreSQL, Redis, Bull, JWT, Tailwind CSS, shadcn/ui

Full-Stack E-Commerce Web Application

code ecommerce-app

- Built a complete e-commerce platform with product management, authentication, and admin dashboard.
- Integrated secure user login using **JWT** and **bcrypt**; image uploads handled by **Multer**.
- Backend powered by **Node.js and Express**; **MySQL** used for relational data management.
- **Technologies:** React, Node.js, Express.js, MySQL

Online Test Platform

- Created a web-based test platform for students to take subject-wise online assessments.
- Implemented separate admin and student panels, including real-time score calculation and result tracking.
- Optimized user interface for better accessibility and mobile responsiveness.
- **Technologies:** PHP, MySQL, JavaScript, Bootstrap

Technical Skills

Frontend: HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, React.js

Backend: Node.js, PHP, MySQL, MongoDB

Tools: VS Code, XAMPP, Git, GitHub, Postman

Education

Master of Computer Applications (MCA) | Alagappa University, Karaikudi 2024 – 2026

B.Sc. Computer Science | Raja Serfoji Government College, Thanjavur 2020 – 2023
Bharathidasan University | CGPA: 7.7/10 (72.09%)

Certifications

Web Development Professional Certificate — T4TEQ Software Solutions Verify

Microsoft Certified: Azure Fundamentals — Microsoft Verify
